

BACK UP YOUR HOSPITAL

Tell The World About It

PEOPLE SHOULD BE PROUD OF THEIR "HOSPITAL ON THE HILL"

The story behind the establishment of the West Lincoln Memorial Hospital is a story of the people of this district, during the past three and a half years which has seen the building and bringing into operation of this institution, at a value of \$84,011.51 of which \$65,311.51 was subscribed in cash and \$18,700.00 in kind, plus another \$4,000-odd in working capital all of which could not be duplicated for \$125,000 today.

In most cases institutions such as this are sponsored by some form of government such as the Province, County, City, Town or Village, but in this case it is the people who use it that have been carrying the load on their own.

At the outset, no one, it is frankly admitted, ever expected to have what we have today; and the most enthusiastic workers for the project, when asked how it was all accomplished, say—"well, I guess it was like Topsy, it just grew."

The people from in and around Winona, Grimsby, Beamsville, Vineland and Smithville each and every one did their part.

In the first six months of its existence 234 patients were admitted from the following districts: Beamsville and Vineland, 111; Grimsby, 106; North Grimsby, 41; Smithville, 33; Winona, 33; Others, 10.

In discussing the operation of the Hospital, A. R. Globe, chairman of the Board, pointed out, "that rates for Hospital care have not been advanced with increased operating costs, and for many reasons, cannot be advanced, which is (Continued on page 6)

Here's Your Chance

HELP IS NEEDED TO PROCESS FRUIT BELT'S BIG PEACH CROP

Harvest of the biggest peach crop in the history of the Grimsby Fruit Belt is now getting under way and within another week will be in full swing.

Local processing factories have prepared themselves to handle the largest pack of peaches that they have ever attempted to put in cans, if they do not succeed in their efforts it will be on account of shortage of female labor to handle the thousands of tons of peaches that they contemplate processing.

In conversation with Norman J. Todd, manager of the Robinson St. factory of the Canadian Canners, he stated "we expect to put up the biggest pack in the history of this factory. There have been some very large packs processed in this plant in the past, but the pack this year will be the largest ever, providing we can get the female labor that we require to do the work."

If the citizens of this district, particularly the women wish to see the enormous peach crop saved, which means money in the pockets of the grower and everybody else connected with the fruit industry, they will offer their help to the processing plants in order to can every last peach that is possible for the plants to handle.

Canning factories of today are not the canning factories of the old days. The present day processing plant is just about one of the most sanitary plants of any description in operation. The workrooms are light and airy and everything in connection with the work is spotless. No woman should hesitate for one moment in taking a job in one of these plants from a working condition standpoint. Also the (Continued on page 7)

Tragic Accident

YOUNG GIRL INSTANTLY KILLED WHILE WALKING ON HIGHWAY

Walking east on the south shoulder of No. 8 Highway enroute to church service at Grimsby Sunday morning, Betty Anderson, 16, daughter of Mr. and Mrs. A. D. Anderson, 104 Highland Ave., Toronto, member of the Ontario Farm Service Force at Cleveley Camp, North Grimsby, was fatally injured when struck by an automobile which, police said, suddenly swerved across from the north side of the pavement.

Patricia Anderson, 16, daughter of Mr. and Mrs. J. Anderson, 38 Hillsboro Ave., Toronto, walking with her at the time, was a few feet distant and escaped by a narrow margin.

Driver of the car said involved, Stanley Bobkovich, 17, Grimsby, was questioned at length by police. Charles Schwab and Walter Moberry, both 17, of Grimsby, and four girls from the Farm Service Force, were also said to have been occupants of the car at the time of the fatal accident.

The injured girl, struck with considerable force, was hurled to the ditch, where she died before medical aid could reach her. Her shoes, torn from her feet by the impact, were found on opposite sides of the highway.

Dr. C. W. Elmore, coroner, of Beamsville, after a conference with E. H. Lancaster, K.C. Crown attorney for Lincoln County stated that an inquest would not be held.

Bobkovich has been summoned to appear in Magistrate Campbell's court on Tuesday, Aug. 27th, on a charge of dangerous driving under the Criminal Code.

Provincial Constable E. G. Hope has charge of the investigation.

The Grimsby Independent

Grimsby, Ontario, Thursday, August 22nd, 1946.

HERE ARE THE CARS YOU HAVE BEEN WAITING FOR

The Kaiser car, made by the Kaiser-Frazer Corp., is first in the American, low-priced field to have front-wheel drive. Body and chassis form a single unit of "monocoque" type construction, eliminating strain, shifting between body and frame, and body squeaks. It has a 6-cylinder Continental engine and independent "torsion bar" suspension on all four wheels. The rear seat is 62 inches wide, providing roomy, comfortable traveling.

Even before the war was over Henry Kaiser, the California man who turned out ships like a hen turns out eggs, announced that after the hostilities ceased he would turn his attention to producing a low priced automobile for the Canadian and American public. Something better than ever produced before and at a much lower price than any other car ever sold for.

This started the public talking and ever since V-J Day they have been watching the movements of Kaiser and anxiously awaiting his new car. For the first time in Ontario,

except in Windsor and Toronto, The Independent gives a pre-view of what the automobile riding public can expect when the Kaiser car hits the sales rooms; also a picture of its sister car the higher priced Frazer. They are both shown here, days ahead of any other paper in the province.

In the Fruit Belt these cars will be sold and serviced by Nick N. Budner of the Midtown Motors, he having the exclusive sales agency for a very large territory in the Niagara Peninsula. If you want further information about these two cars just give Nick a ring.

The new 1947 Frazer automobile, a Graham-Paige product, is the first American car designed with flowing front-to-rear fender lines. It is a six-passenger car, with wheel base of 123½ inches, and powered by a six-cylinder, 100 horsepower Continental engine. Front and back seats are 62 inches wide, providing roomy, comfortable interior, adequately seating four average people.

Is Well Pleased

HIGHWAY MINISTER COMMENDS LINCOLN ON ITS FINE ROADS

Interviewed Thursday morning, Hon. George H. Doucet, Minister of Highways for Ontario, commended Lincoln County on its road system and the proposed additions to be made to the system within the next two years. The minister spent two hours in St. Catharines Thursday morning meeting with the Road Committee of the Lincoln County Council.

Following his meeting with the Road Committee, Mr. Doucet remarked: "The additional look good; they all connect with important centres, and will certainly round out the country road system."

He praised the condition of the Lincoln roads, adding that he had made a trip across the county system previous to his visit.

Mr. Doucet also spoke highly of the excellent financial condition of the county, pointing out that "Lincoln is certainly well able to handle its own affairs."

Vi's Beauty Salon
In New Location

Mrs. V. Markey who some months ago purchased the Culp residence on Main street east has completed renovations to the property and has moved her beauty salon to that location.

This large home has been converted into a two family duplex beauty salon. The salon has been decorated and equipped in a modern manner and is fully prepared to take care of the wants of the most fastidious customer.

The salon will be open to the public beginning today and Vi cordially invites all her old customers to pay her a visit and all others who desire first class beauty parlor attention.

Yankee Exchange

A Grimsby Beach resident has a complaint. We believe a just one, but how he is going to overcome it is beyond us. He complains to The Independent as follows:—

"It was announced that Canadian money would now be accepted at par in the United States."

"This is not the case however."

"On Thursday of last week in Niagara Falls, N.Y., (just across the border) 2 per cent discount was demanded on Canadian bills tendered payment of goods purchased. How would United States take like it if we refused to accept 2 per cent discount?"

Everybody Can Help

IF EACH ONE GIVES A LITTLE IT WILL GROW INTO BIG MONEY

Grimsby Beach, Ont.
August 20th, 1946.

Dear Fruitgrower:

"One for the mouse and one for the crow
One to rot and one to grow."

Could you also spare a few baskets of some fruit — peaches, pears, plums, apples, or grapes, wheat, oats, etc., — for the maintenance of your Hospital?

The procedure is very simple. On the order blank below fill in the number of baskets of peaches or other fruit that you wish to donate. Fill in your Fruit Dealer's name. Sign your name. When you deliver a load of fruit to your Dealer, you hand him the signed order. When the fruit is sold the Dealer turns the proceeds over to the Hospital.

Simple, isn't it! It doesn't hurt either! Perhaps you may think that it is such a small thing that you will not bother, that you have not the time. But, there are a lot of Fruit Growers. When each one contributes five, ten or more baskets, a magnificent total rolls up.

West Lincoln Memorial Hospital is now an established part of our Community. If one of your neighbours has used its services, doubtless, he or she has been loud in singing the praises of the Hospital and its Staff. In its first six months of service to the end of June, it performed the following services—60 Operations, 86 Births, 78 X-Ray Examinations, 93 Medical Cases.

The best Specialists are glad to treat you right at home, because they recognize that your institution is modern and your Staff is the best.

FRUIT PROCEEDS TO THE HOSPITAL IS THE FARMERS' SPECIAL. We trust you will support it.

Yours very truly,
WEST LINCOLN MEMORIAL HOSPITAL.
E. H. Scott, Secretary.

No Tickee, No Laundry

HONG LEE WASHEE SHOP IS CLOSING UP AFTER 46 YEARS

During the past 46 or possibly 48 years Grimsby has had an up and down trend of Chinese population, but the low ebb, since the beginning, will come the end of August when Hong Lee Laundry closes its doors to the public. Doors that the public do not wish closed. The March of Time and the March of Progress is the cause.

The Hong Lee Laundry is not doing any laundry work this week. All laundry brought in, up to last Thursday night will be finished. All laundry in stock will be ready for delivery at any time you call. You must call for your dirty, but now clean shirt, by the end of the month.

The property and building of the

Hong Lee Laundry has been sold. The building will be torn down and a new \$10,000 building erected in its stead. "Scotty" the owner of the property and building made a good deal when he sold, but the trouble is that there is no place for "Scotty" and his Chinese pals to set up business in.

As "Scotty" told The Independent "I no want to leave Grimsby. You find me place I go head and do business."

There is a long "Queue" behind "Scotty" and the Hong Lee Laundry. A story that stretches back to 1900 and possibly 1898.

Anyway, in 1898 or 1900, there came into Grimsby a Chinese (Continued on page 7)

Crop Prospects Good

LACK OF RAINFALL HAS NOT CURBED GROWTH TOO GREATLY

All fruit crops have developed reasonably well and are in fairly satisfactory condition at present in most areas. The only factor which has tended to curb normal development has been the comparative absence of widespread rainfall and relatively high temperatures in all sections during late July and early August, up to the 9th, although some sections were occasionally relieved by local showers.

While the heat has tended to bring practically all crops to maturity rapidly, the lack of sufficient moisture has resulted in a general reduction in size of those fruits currently being harvested, notably early apples and current varieties of peaches, particularly in the North and Niagara districts.

(Continued on page 8)

Other tree fruits have been less affected so far, while bush fruits matured before being affected by lack of moisture. Raspberries, now practically finished, were reduced somewhat in volume by dry conditions. To date, grapes are showing satisfactory size and good condition. Hail damage has been severe in small localized areas, chiefly Essex, Burlington and Niagara.

Harvesting has been conducted according to schedule although the necessary employment of considerable unskilled labour has caused local difficulties with respect to maturity, especially in peaches. Prices have been maintained at (Continued on page 8)

Benefit To Grower

HENCEFORTH THERE WILL BE NO NUMBER THREE PEACHES

On Recommendation of the Ontario and Niagara Peninsula Fruit Growers' Association, provisions for Grade 3 peaches under The Farm Products Grades and Sales Act have been abolished. This was announced at Queen's Park last week by George Wilson, Director of the Fruit Branch of the Ontario Department of Agriculture. The new regulation stops all movement of peaches of this grade.

Grade 3 peaches are now recognized as a menace to the sale of quality fruit. Growing conditions

have been very favourable this season and a large peach crop of good quality is in prospect. Coupled with this action, new departures in packages and more rigid inspection have been inaugurated, and growers are going all out to increase consumer confidence in their product, Mr. Wilson states.

In addition to the abolition of Grade 3 peaches, Mr. Wilson also announced a new Domestic Split Pit Grade. Peaches of this grade have to be No. 1 in size and of (Continued on page 7)

FACTS & FANCIES

Frank Fairborn, Jr.

WHAT WAS LOST

What did the steel and coal strikes in the United States mean, not in manpower unemployment hours particularly but in lost goods of which everyone is in need. American analysts have figured it all out.

Lost steel production from November, 1945, to the present was translated into lost products, and it was shown that all this was lost to the American public:

8,000,000 automobiles.
20,000,000 refrigerators
10,000,000 locomotives.
20,000,000 washing machines.
5,000,000 kitchen ranges.

Even that was far from the whole story. Because it would mean that the things for which all those products would be exchanged if things were normal, would not be produced, and the wages for producing them would be lost.

The paralyzing effects on commerce, reaching out into the big and small stores; transportation; restaurants, and all the other fields of business, needed no elaborating. It was all clear enough.

DO IT "THROUGH THE CHARTERED BANKS"

Announcing in Parliament that the Canadian copper-colored "nickels" are being withdrawn from circulation and expressing the belief that "the movement will be completed within the near future," the Finance Minister added that "the withdrawal was being carried out through the chartered banks."

We see so many statements of that kind—that this and that and the other thing is being done "through the chartered banks"—that we pay little or no attention to them any more.

But we should stop and think about it.

There are those in this country, no large number, perhaps, who count that day lost that does not provide them with a chance to criticize "the banks." To hear that kind of talk, you would imagine that "the banks" do as they please with other people's money and their own . . . that they carry on without let or hindrance, making their own laws and regulations, and generally amassing fortunes for their executives and directors.

The fact is, of course, that banking in this Dominion is hedged about by the most rigid restrictions and controls—not in seasons of "control" alone, but always, in seasons and out of season, in peace as in war. The banking laws of Canada are the most exacting of all laws governing Canadian business activities. All banking is done under the eye and supervision of government . . . And no banking system in the world is sounder from the public viewpoint.

The banks of Canada did an immense job in wartime and are doing an immense job in this "transition" period. The fact that the public hears little about it is an indication of how thoroughly it is being done, without grounds for serious complaint.

How much free or near-free service the chartered banks of Canada give governments and the public we do not know, but it must be very extensive, indeed. (Look at the line-ups at the bank wickets each week or month of people cashing government cheques. It is just one example of the service the banks are giving the public—without much "percentage" in it for the banks.)

This is not a "defence" of the banks or an "apologia" for them: it is merely an attempt to give to the banks of this country some small measure of the credit that is due them.

Editorial—Halifax Herald, July 11, 1946

The men who try to do something and fail are infinitely better than those who try to do nothing and succeed.

THE GRIMSBY INDEPENDENT

Thursday, August 22nd, 1946.

SURVEY AT HAMILTON

The Financial Post last week carried a full page survey of conditions in Hamilton, the work of two trained reporters sent in to secure facts. Two out of every 11 industrial workers in Hamilton are idle at the present time due to strikes and lay-offs for lack of materials. Out of a total of 57,000 normally employed by 390 firms, approximately 10,000 are unemployed. But the moral effect is even worse than the physical.

"Fear hangs like a miasma over thousands of homes," is the way one writer puts it. In the first days, the strikers were mad because so many men stayed in and kept at work. Now the men inside are mad at the strikers because they are forced to remain inside. What this means, when the individuals are once again turned loose on the community is anyone's guess. There is already a feeling of civil war within the big city; the brooding cloud of fear was at every home where the investigators called.

Out of several specific cases, here is a typical one. "There's an Italian family living within the shadow of Stelco. It was a happy family until four weeks ago. The father had worked at Stelco for 20 years. Two sons were going to McMaster. A third was at high school. The father got the boys jobs in Stelco for the summer. They started late in June, and joined the union. Their father joined when organizing began in the plant three years before. The strike call came. The two boys walked out, their father stayed inside. Tearfully, the woman told us, the two older boys have said they don't care if they ever hear from their father again."

It would require the judgment of Solomon to diagnose and try to reconcile the conflicting points of view, which are to be found from across the street, over the backyard fence and in the hallways of homes themselves. One family may live upstairs where the breadwinner remains at work; one down below where the strike order is observed, and it is, perhaps, an understatement, that Hamilton will be poisoned with feeds and bitterness for years to come.

The conclusion of the investigators of The Post is that the strike has backfired badly on union leadership and has not stopped production as hoped for. It is a war of attrition and only a question of time before a break of some kind occurs.

UP IT GOES

The cost of living in Canada has gone up a point and a half since June, five points in the last four months, and now represents an increase of 24.1 points since August, 1939.

At once the paternal government comes to the rescue of the civil servants and adds a round increase in expenditure of from \$6,000,000 to \$7,000,000 to take care of salary bonuses. Government employees earning from \$175 to \$250 per month will receive a bonus, starting as of August 1, of \$14.20 a month as compared to \$6.51. Other classified groups receive similar pay boosts.

Official records show that the wage level of Canada has risen about 40 per cent. That means wage, not what is ordinarily regarded as salary level. Salaries have been frozen throughout the war. The white-collared worker in the middle-salaried bracket, say from \$2,000 to \$3,000 is today faced with an approximate 25 per cent. increase in living costs, while from the salary received the government extracts the maximum income tax. Twelve to fifteen dollars a week fairly hits the average forced contribution. And

The shorts are getting shorter. Pretty soon they will be nothing but a "C" string.

The home property of Mrs. H. H. Farrell has been greatly improved by trimming off the upper part of the fine front lawn hedge.

There is still humanity in this world. Councillor A. C. Price, retired Bell Telephone manager greeting, in front of Millard's Drug Store, Miss Marion House, an old Bell Tel. Miss Bell, now a graduate nurse.

A gentleman with a furrowed brow stopped this columnist in front of Sammy Levine's store and said "how can you stop women from talking." I replied, "Don't ask me, go and find out from the man that invented them."

Did you hear about the popular local police officer who went out to play baseball with the kids and when the ball crashed through the window of an adjoining house he ran like the devil, just the same as the kids did?

For years this columnist has called "Honey" Shelton's "Old Back Shop" the den of iniquity. A very fine Reverend gentleman, who has become accustomed to visiting the "Old Back Shop" informs me that it is not a den of iniquity, but rather is a seat of learning.

Worse news is yet to come. Donald Gordon says further increases are expected and will be inescapable in living costs.

No one regrets or cavils at the increase for the government worker which will enable him to buy two baskets of Grimsby peaches where he couldn't afford one before. There is a vast field of workers in Canada, however, who have long been forgotten in the budget picture but not forgotten at all as income tax payers. Mr. Hiley said it would be unwise to give the people too much money to spend at this time. It would promote the inflation trend. He must have been referring to the various groups, mostly unionized and highly organized and articulate, which today enjoy a 40 per cent increase over the wage levels of 1939. He was not thinking in terms of welfare for the forgotten white-collar chap.

There is nothing seemingly can be done about it. It can only be discussed with futility. It is plain as day, however, that the incidence of personal and much other taxation in Canada is unfair and unjust. Inequity at any time is hard to digest; when it strikes hard at a man's take-home pay it is intolerable.

Work supplies the daily food, but cheerfulness gives it relish.

'WAY BACK WHEN

Frank Fairborn, Jr.

From 1901 onward great crowds continued to attend Grimsby Park and listen to the varied programmes provided in the Temple. Sunday school and fraternal picnics of large proportions continued to flock there every year, but about 1908 the park began to get into difficulties. Internal strife among the directors and other things caused the park to go backward until 1909 when financial troubles caused the mortgage holders to intervene with the result that in the winter of 1910 old Grimsby Park Co. passed into oblivion and the property was sold by the mortgage company. It was then that the versatile H. H. Wylie, a Cleveland newspaper and advertising man, appeared on the scene and took over the property and thus was born Grimsby Beach.

Wylie started a new regime at the Beach. He tore down the old wooden fence; did away with the ticket gates and admission price; built a moving picture theatre for the late A. W. Moore; built a Figure "8" the first one ever erected in Canada, it being built in the spring and the one at Toronto Exhibition being built that fall; a big carousel and a merry-go-round were installed, also a miniature railroad; numerous hot dog stands and soft drink booths sprung up and other amusement park features came into existence; but the one big feature that made the old time Methodist founders of the park turn over in their coffins was the erection and operation of a dance hall.

At first Wylie and myself (for I was Wylie's Press Agent and General Ficer) were just a little bit leary as to the outcome of this public dancing institution and our fears were not without grounds for the first year the hall was a flop, but in 1911 it was different. The younger generation of the old timers were living in a different sphere and dancing was one of their pet theories and the hall under the supervision of Perry Flakie and his good wife, became a sacred institution to the young people of the park and the district. It was a mighty change in this old park that took place. Might I say that it was a change from the sublime to the ridiculous.

Side show ballyhoos took the place of the pulpit pounder; hurdy-gurdy music took the place of the Temple choir; a large stage for theatrical productions was erected on the spot where stood the old pulpit platform and the Temple became a theatre with a permanent stock company holding the boards, and producing two performances a week. It was here that the Sarah Gilmey Stock Co., one of the best ever seen in Canada, played for two seasons, and to this day Miss Gilmey (Mrs. Walter Wilson) is remembered by a host of friends in this district. Miss Gilmey, I believe, is living in Florida, or was until a few years ago. At that time she was producing amateur theatrical troupes throughout the Greatfruit Belt. Jack, was at that time attending University of Michigan, a big strapping boy of 24, and who I believe would make a name for himself in this world of strife.

The big Dams dog, of course, that chased Martha over the ice, (made of canned food boxes and painted white), across the stage in the old Temple theatre, is in dog heaven. Dance music took the place of hymns and in general everything in and about the park took a complete turnover.

Imagine people bathing and boating on Sunday, nevertheless it was a fact. Moonlight excursions and whatnot came to the park. Wylie had parachute jumpers and barbecues, picnics and sandalines of every description. He laid out a baseball diamond and quarter-mile race track, and so to speak made the park absolutely what its founders never intended it to be and had fought against all their lives.

The better years of the new Beach were 1910-11-12-13 and 14. In the latter years Canada Steamship Lines acquired the property and they ran it in a more or less lackadaisical manner until 1919, when another reformation started to take place, this time for the better.

On August 7th, 1914, a great block of 32 cottages in the centre of the park was consumed by flames and on Dominion Day morning, 1918, the old Lake View hotel, that stood where the present lawn bowling greens are, went up in smoke. Other fires of more or less importance took place after that. As years rolled on the park became less and less a picnic and amusement resort and more a high class residential community. Thanks for this reformation and improvement can be given to the late John Pearson and his live wire colleagues who formed the directorate of the Grimsby Beach Cottagers' Association. Gradually all the old buildings disappeared until today they are all a memory and in their place are flower gardens and lawns, well cared for and enjoyed by all who pass that way.

George Fair, the present superintendent of the park was brought from the village of Arthur in the spring of 1916 by Wylie to take over his present position. He was a brother-in-law of Wylie's and did and has made a success of his undertaking.

During my short, young and hectic and sinful life I have enjoyed the pleasures of Grimsby Park or Beach under three different atmospheres. In memory I think I like the second and original Wylie regime the best. In activity and spirit of building and production I like the Wylie regime. In old age and retirement I believe I like the present beautiful and useful regime the best.

Grimsby Park, like man, has passed through the ages of life and I have passed through with it, for which I am thankful. What the next 20 years will bring forth in the history of this magnificent resort, I nor no one else can tell, but I expect to be here to chronicle the changing.

I thank you.

THE OLD HOUSE

Just a ramshackle house at the side of the road, weather stained, shabby and gray, but a sturdy old ramshackle still clings to the porch. And the hollyhocks blossom and away, to a gay little breeze that sifts through the trees, where the robin's song tinkles all day.

Just a ramshackle house like a lonesome old crane, living alone with her dreams, but the oak tree remembers the life that is gone, while a blue jay chuckles and crows, and a mourning dove grieves with his nest 'neath the eaves, and sighs while the pale moon gleams.

Just a ramshackle house, yet once it was home, its old walls have echoed to play, Gay children have romped where tall weeds now grow, Here a woman's hand held away, But those years have long flown, And the children have grown, And the old home is empty today.

SPORTOLOGY

(By Bones Livingston, Sportologist)

IT'S NOT THE HEAT. IT'S THE HUMIDITY. Things are starting to hum at THE BOWLAWAY. Grimsby's piscatorial artist, LITTLE WHIZZER by name, is home from the bush country and is now busily engaged in getting the alleys in shape for opening day on Labor Day, except that going back to work—he just loves it—gave him a couple of crinks in the back, but he will get over it. Anyhow the alleys will be sanded down, refilled, varnished and highly polished ready for CLAYT RAHN to start out once again on the hip-pocket championship trail. . . . Things are mighty quiet at the QUALITY MEAT MARKET. Reason, JAMES RADIO DUNHAM is on his holidays and CLIFFORD GRAMAPHONE MacCarney has nobody to disturb the peace with. It will be a great relief to the customers' eardrums. . . . JOHNNY MITCHELL and his PITTSBURGH HORNETS start practicing at the St. Catharines arena next month. JOHNNY wanted to bring his crew to Grimsby to train, but peaches come ahead of hockey at this season of the year. . . . HARRY STURCH with his good three-year-old trotting mare MAKE BELIEVE got second money in the three-year-old class mare at New Hamburg last week. She won the second heat in 2:17, Fair going for a juvenile. HARRY BIGGAR the Fruitland Cherry King failed to land in the dough with his trotting colt VAND BURTON. . . . JIMMY LAWRIE, for many years a successful harness horse trainer and driver, took in the CANADIAN DERBY meet at New Hamburg and he says it was the finest card of races and the biggest crowd he ever saw on a Canadian track. GRIMSBY LIONS CLUB could have done the same thing and made a lot of do-ra-me. . . . WEST, THE BARBER is still talking about buying a harness horse. . . . LIGION team are a hot aggregation right now. In the first round play-offs in the O.A.B.A. they took Jordan last Thursday night by a score of 7-4, and under the umpiring of Father O'Donnell whipped that game through in one hour and six minutes. Smart playing. Monday night they larrupped the boys from the east on their own plantation 14-2. The soldier laddies now meet STONEY CREEK in the second round. First game on the Public school grounds on Thursday night. This should be a real game. . . . BIG RUSH-TON is home from his holidays and is all ready to go with his PEACH-BUDS hardball team in the playdowns of the juvenile series of the O.A.B.A. He has been notified that the first series will be against the DUNNVILLE MUDCATS and the first game will be played next week, but at the time of writing the day and date is not definitely known. It may appear in Brevities if received before this paper goes to bed on Thursday morning.

one of Canada's greatest natural resources.

Movies Invaded By Inflation

Inflation invaded the set of Mutual Productions during the filming of "Pardon My Past," currently starring Fred MacMurray with Marguerite Chapman under Columbia Pictures' release at the Romy theatre to-night and to-morrow night.

Akim Tamiroff, portraying a cultured gangster who collects first editions, was supposed to purchase a rare book for 500 dollars. As the scene was being shot, Leslie Fenton, who was producing and directing, called "Cut." Tamiroff looked up questioningly and asked, "What's wrong?"

"Considering today's market," Fenton said, "I think 500 dollars is too cheap."

"Five thousand dollars would sound better," MacMurray volunteered.

"Five thousand it is," agreed Fenton.

Standing off the set, taking it all in was Fenton's production manager, Joe Gilpin, who jokingly remarked, "They don't care how they spend money. But this increases I like—it doesn't show on the budget."

FIRE DESTROYS JOBS
A forest fire not only destroys valuable timber, it may also force mills to close down and put people out of jobs. Playing safe with matches and fire in the woods helps prevent forest fires. Fires are started by thoughtless people.

An old-timer is the one who can remember when a man was considered well dressed when he wore his Sunday suit.

Conservation Of Wildlife Family

Safaris currently being planned by the Royal Ontario Museum will provide at least two members of Canada's wildlife family with a new lease on life in the near future.

A research fund which the Museum has recently received will permit the undertaking of projects designed to promote the conservation

of Moose and Maskinonge, as well as the development of similar programs for other species. The Moose and Maskinonge projects are already under way.

The importance of immediate conservation of these resources is highlighted by the example of the Trumpeter Swan. This species, once found in abundance throughout North America, was depleted until, in the early nineteen hundreds, only two of the birds were known to exist. Without proper conservation, it is conceivable that the extinction of other forms of wildlife might follow this pattern.

The Moose project is expected to be carried out over a three to five year period. It will take the form of an expedition, consisting of ranger guides and wildlife specialists using cameras and making detailed notes. When compiled, the expedition's notes will form the basis for a Moose conservation program. The director of the project is Mr. R. L. Peterson, a specialist engaged by the Museum, whose findings will be supplemented by Miss Shirley Kennedy's studies of Moose history. Mr. Peterson has been actively engaged in the study of Moose in Algonquin Park since May 13, 1946.

Mr. G. E. Cameron, working in conjunction with Mr. Shelley Logler, is in charge of the Maskinonge project. This project is being undertaken to secure data which will be used in promoting the survival of one of Canada's most popular game fish.

Mr. R. Kennell, K.C., Prof. J. R. Dymond, Mr. E. C. Cross and Mr. J. Watt form the committee set up by the Museum to administer the research fund. The fund will consist initially of three annual cash grants, placed at the committee's disposal by The Carling Conservation Club.

In order to derive maximum benefit from the fund, the committee plans a sustained program extending over a number of years. In addition to the two immediate projects, it anticipates studies along similar lines dealing with the habitat, food, enemies and habits of other forms of wildlife. It is felt that the collection and interpretation of this information will be of material help in the preservation of

Mel and Mrs. Johnson are holidaying along Lake Erie shore.

Harry and Mrs. Tregaskes have moved to Chatham to reside.

James and Mrs. Dunham and Phyllis are holidaying in the North country.

Miss Gladys Gilbert, of Ottawa, is visiting her aunt, Mrs. Thomas, Elizabeth St.

T. L. Dymond and family have returned home from a six weeks vacation at their cottage at Port Carling.

Miss Donna Marshall has returned from a two weeks' vacation spent at Lauriston Lodge, Shawbridge, Que.

Michael Farrell, of Trenton, is holidaying with his grandparents, Chas. T. and Mrs. Farrell, Mountain street.

Week-end visitors with Mr. and Mrs. Sam Hunt, Elizabeth St., were Mr. and Mrs. C. Sherry, Brantford, and Mrs. A. Bailey, Hamilton.

Miss Winifred Congdon is back in her office, after a vacation at Ahmic Harbour, where she reports having caught several bass and pickerel.

Harvey and Mrs. Woods have returned to their Livingston avenue home after a pleasant two months motoring trip to various points in Ontario.

Friends of Mr. and Mrs. Sam Harris, who are now residing in Kincardine, will be glad to learn that Mrs. Harris is much improved in health.

Mrs. C. Richardson, Atlanta, Ga., who has been spending a short holiday at the home of her brother, Mr. W. Falk, Adelaide St., returned home last week. Mrs. Richardson made the trip here by plane.

Mr. and Mrs. Jack Larmont, North Grimsby, and Mrs. E. E. Jeffery, Vinemount, have returned after a week's holiday at Wasaga Beach. They spent last week-end at Clarksburg, guests of Mr. and Mrs. Russell Chrysler, and in Durham visited Mr. and Mrs. William Campbell. They spent some time in Barrie, and also in Owen Sound, where they were guests of Mrs. James Packham.

Dr. and Mrs. LeRoy Henry spent the weekend with friends at Elm-hurst Beach, Kawartha.

"Scotty" and Mrs. McKay, of Toronto, and Mrs. Allan Colter, of Burlington were visitors in town on Thursday last.

Miss Shirley Robinson, of Mount Hamilton, is a holiday guest at the home of her grandmother, Mrs. W. F. Robinson, Adelaide St.

Mrs. George Bayne, of Auburn, Alabama, has been visiting at the home of the Rev'd Neil M. Leckie and Mrs. Leckie.

Mr. and Mrs. Neil McMillan, of Rochester, N.Y., have been the guests of Dr. and Mrs. N. M. Leckie, Korman Avenue.

Ernest and Mrs. Kennedy, of Toronto, former Grimsby residents, have been visiting with friends and relatives in the district for the past few days.

Births

SCOTT—To Major and Mrs. E. B. Scott, (formerly Margaret Stewart, of Lurgan, Northern Ireland), a daughter, at West Lincoln Memorial Hospital, Grimsby, Ontario, on Saturday, August 17th, 1946.

Beaver Club

A meeting of the Beaver Club was held on Monday evening, August 19th, at the home of Mrs. Andrew Smith, Mountain St. Twenty members attended. Tribute was paid to the memory of the late Mrs. E. K. Moore who was Honorary President of the Club.

Several items of business were attended to, then the meeting took the form of a Birthday Party for one of the members. Everyone had a most enjoyable time, and delicious refreshments were served by the hostesses, Mrs. H. G. Mogg and Mrs. A. Henderson.

The next meeting will be held in the Church Rooms on Sept. 9th.

Women's Institute

The August meeting of Grimsby Women's Institute was held at the home of Mrs. Seth Reed, Gibson Avenue last Tuesday evening with a good attendance.

The topic, Citizenship, was in charge of the president, Mrs. Wm. Layton, who gave a talk on Sir Famous Words—To Be Or Not To Be. After a discussion period a sing-song was enjoyed. Prizes were won by Mrs. H. Burton and Mrs. E. Farwell.

The next meeting of the Institute will be held at the home of Mrs. Stewart, Robinson St. Further notice will be given to the members.

Congratulations

The Independent may have been a week late, but it was with great joy that we were able to greet Mr. A. P. Henry, on the veranda of his home on Mountain street on Friday night last.

"A. P." on the Wednesday previous had celebrated his 67th birthday, and his son Roy and family from Kirkland Lake were present. For a good many years the garden behind the Henry home has been the envy of all the gardeners on the street, for both flowers and vegetables, it still is.

As Arthur remarked, "there are no winters any more, they are all summers."

Congratulations.

Four Generations

Pictured here are four generations of a family well known in Grimsby and district for a great many years. Sitting is the great-grandmother Mrs. Elora Phipps, holding on her lap her great-grandson, three months old, Wayne Douglas Wood, son of her granddaughter Mrs. Harry Wood (standing). Sitting on the arm of the chair is Mrs. Phipps' daughter, Mrs. Della Hill, mother of Mrs. Wood, now residing in Brantford. Mr. and Mrs. Harry Wood and baby live in Peterborough.

Girl Guides

London, Aug. 15.—Wearing the silver-braided blue uniform of a Guide Commissioner, Mrs. Gordon Conant of Toronto and Winona, is in England en route to Evian, Haute Savoie, France, where a world conference of Girl Guides takes place next month.

"I came over well ahead of time," she said, "because I have a lot of study to do. I've only been with the movement six years and I started at the top. I did not work through the ranks unfortunately and there is much for me to learn." She has tackled the job already. Mrs. Conant arrived only yesterday and this morning she spoke at a Canadian Guides' meeting.

She leaves Saturday for Adelborn, Switzerland, camp, where training conferences will be in progress. At the conclusion of the Evian meeting Mrs. Conant is returning to England, where the British association is planning a month's program for her.

Commissioner of Ontario's 17,000 Girl Guides, Mrs. Conant said she is impressed with the need for maintaining a sound policy and program for Guides.

"Fundamentally our foundation is as sound, perhaps sounder, than when it was laid in 1909," she said. "Our founder must have had vision, for there are always new ways in which it can be applied. During the war, for instance, Guides played an important part."

Mrs. Conant told of discovering that the first meal prepared in an outdoor street kitchen during London's blitz was served by Guides who demonstrated how 300 persons could be quickly served. Now she is looking forward to hearing of the experiences of Guides on the Continent who served in the underground during the occupation.

She constantly makes her notes in a black leather-covered notebook. While in England she is staying with Lady Baden Powell, who invited her to Hampton Court during a tour of Ontario last June and July. Mrs. Conant leaves Saturday for the Continent, where she will be joined by Mrs. Norman Gannell of Barrie, Ont., who is the second Canadian delegate to the World Conference.

Mrs. Conant is a daughter of Hon. E. D. Smith, of Winona.

Tregaskes Family Move To Chatham

Grimsby suffered a loss this week. Ontario Department of Highways officials saw fit to remove Capt. Harry Tregaskes to the post of Assistant Engineer in Residence No. One, located in Chatham.

Harry and Clara have already packed up and moved to that point. The Independent wishes them all the luck in the world.

Mr. and Mrs. Roger Murphy, of St. Catharines, have purchased the Tregaskes home and are now moving in.

In Memoriam

HENLEY—In loving memory of my dear husband, Ernest Henley, who passed away August 21st, 1944.

He has taken his last long journey. In God's beautiful ship called "Rest."

Away from this world of sorrow To a home of eternal rest.

—Ever remembered by wife and children.

WARNER—In loving memory of a dear friend, Mrs. Sam Warner, who passed away three years ago, Aug. 23rd, 1943.

A loving smile, a heart of gold. No dearer friend this world could hold.

Some may forget her now she's gone.

But we'll remember, no matter how long.

—Ever remembered by Amelia and Mike.

He Never Sleeps

Good morning, merry sunshines. How did you wake so soon? You scared away the little stars And shined away the moon.

I saw you go to sleep last night. Before I said my prayers. Low in the west you sank to rest. How did you get up there?

I never go to sleep, dear child, I just go round to see The little children of the East, Who rise and watch for me.

GIVE BABY AIR

If you would save him from many coughs and colds and possibility of other ailments, get baby "ut into the fresh air as often as possible. Officers of the Child and Material Hygiene division of the Department of National Health and Welfare at Ottawa, warn mothers against leaving little ones in hot, stuffy kitchens, or in rooms where there are several adults. Confinement of infants, they say, make them pale and irritable, and upset their feeding. They need as much their feet doctor thinks good for air as the them.

Q COUPONS FOR MEAT
The last meat coupon in present ration book, M30, comes good August 15.

The new ration book will not be distributed until September 9-15.

Some of the Q coupons in the present ration book will be used to bridge the gap and will become meat coupons.

Q1 will become good for most purchases on Thursday, August 22, and Q2 on Thursday, August 29.

Nuptials

MILLER—GIBSON

A very pretty wedding took place on August 17th in St. Paul's Cathedral, Shelton Square, Buffalo, with the Rev'd Canon Merry officiating. The happy couple were Miss Florence Gibson, youngest daughter of Mr. and Mrs. S. L. Gibson, of Buffalo, and Mr. Joseph Miller, second son of Mrs. J. D. McBride, of Chattanooga, Tenn.

A reception and dance was held in the evening at the Hamilton Hall, Buffalo, for 90 guests, with music by the Southern Hill Billies. Entertainment was also provided by two gentlemen tap dancers.

Mrs. Miller is the niece of Mrs. Wm. Robertson, her mother having lived in Grimsby for a number of years.

Shower

A number of showers and parties have been given in honour of Mr. and Mrs. William Morrison, the bride being the former Miss Margaret Stuart, of Grimsby.

Misses Frances and Jean Duck were joint hostesses at a miscellaneous shower at their home in Grimsby.

Mr. and Mrs. Harold Aston entertained at a miscellaneous shower and social evening at their home, Thirty Mountain.

Mrs. Grace E. Allan entertained in Hamilton by giving a party and miscellaneous shower.

Mr. and Mrs. Ernest Tweedie also entertained at a tea and presentation at their home in Tapscott.

They didn't call them glamorous girls in grandma's day. It was hard to be glamorous while wearing a dress which trailed the ground.

New Radio Aerial ATop Court House

At the meeting of the General Administration Committee of the Lincoln County Council Friday night, permission was granted to the St. Catharines detachment of the Ontario Provincial Police to erect a radio aerial on the county buildings.

The decision marks the first step towards the provincial-wide two-way radio set-up which is being planned for Ontario by the police. According to the specifications presented to Reeve Roy A. Saunders, of Beamsville, chairman, and the members of his committee, the aerial tower will be twenty feet in height and will weigh 150 pounds.

Grimsby Weather

Week ending at 8 a.m., Monday, August 19, 1946.
Highest temperature 54.0

Mean temperature 53.1
Precipitation 1. inch

Peaches Aplenty

Hundreds of thousands of baskets of peaches are now on the markets throughout Canada from the orchards in Ontario and British Columbia. The Ontario crop this year is estimated at 1,500,000 bushels, about 350,000 bushels more than in 1945 and about 548,000 bushels more than the 10-year average; and the British Columbia crop at 670,000 bushels is 200 per cent above the 10-year average crop of 219,000 bushels.

Lewis Puddicombe In Car Accident

Lewis Puddicombe, older son of Jack and Mrs. Puddicombe, Winona, is confined in Hamilton hospital with bruises and a bad shaking up, but no bones broken, which he suffered at 6.30 on Wednesday morning, at the Stoney Creek intersection of No. 8 and 30 Highways, at English's garage, when the car he was driving was in collision with another car.

The impact of the collision hurled both cars against the gas pumps of the garage breaking two of them off their base.
Lewis was on his way into Hamilton to bring back peach pickers and was crossing the intersection with the green light when the other car crashed into his car which is a total wreck. The driver of the other car suffered severe injuries and several broken ribs.

Lincoln County Free From Polio

To date no poliomyelitis cases have been reported in Lincoln County. Dr. D. V. Currey, Medical Health Officer, said Saturday "but if cases appear there is no need for panic."

"Mothers do not need to become hysterical if cases appear close to the home. Remember that few of those infected have any paralysis, and very few who have paralysis which persists. Do not rely on your own judgment if a child takes ill at home. Call your doctor at once for suspected 'flu' or summer complaints," Dr. Currey cautioned.

- The M.O.H. lists 11 points which should be followed:
1. Avoid over fatigue. Let children have adequate rest.
 2. Pay attention to personal cleanliness. Wash hands before meals.
 3. Avoid tonsil and adenoid operations in children if polio is present.
 4. Use pure milk and water.
 5. Keep flies out of house and away from food.
 6. Wash fresh fruit and vegetables carefully.
 7. Raw fruit and vegetables should be peeled.
 8. Do not swim in water in which there may be sewage.
 9. Avoid contact with persons who appear ill.
 10. Keep children away from crowded places.
 11. Call your physician at once for unexplained illness.

Wig-Wag Signals At Beamsville

At the regular monthly session of the Beamsville council on Monday night the members heard a communication from the Board of Railway Commissioners of Canada authorizing the Canadian National Railways to install and maintain three flashing light signals and one bell at the crossing on the county road on Ontario St., one signal and two sets of lights at the southeast angle, and one signal and one set of light units between the train track and the east bound main line on the east side of the road and one signal and three sets of light units and one bell in the northwest angle of the crossing.

Forty per cent. of the cost will be paid by the railway and the remainder of cost as well as the cost of maintenance to be paid in equal amounts by the C.N.R. and the County of Lincoln.

As this is a heavy traffic crossing between the Queen Elizabeth Way and Beamsville and a busy thoroughfare for fruit trucks to the C.N.R. shipping platforms four months in the year, the installation of the safety signals will be appreciated by the travelling public and the fruit growers in general.

MANY USES FOR WOOD PULP
Wood pulp, of which Canada is the world's second largest producer, is used for making paper, building board, plastics, rayon, vanillin and explosives.

Joe Stalin seems to have a way of always getting his way.

Welcome

West Lincoln - Births -

August 15th—To Meri and Mrs. Welch, Beamsville, a daughter.

August 16th—To Robert and Mrs. Blaine, Grimsby, a son.

August 17th—To Ted and Mrs. Scott, Grimsby Beach, a daughter.

August 18th—To Daniel and Mrs. Chafka, Beamsville, a daughter.

New Caretaker

Out of 75 applications, Peter Tallman, well known barber of Beamsville and better known throughout the county as bandmaster of the Beamsville band, was appointed Supt. of the County Court House by County Council, on Tuesday, succeeding the late Alpha Zimmerman, who held the position for 43 years.

Pete should make a good man for the job. The job itself is a good one, particularly in these times, as it pays \$125 a month, free six room apartment with heat, light and water, and the labor is not too arduous.

Next question is, who is going to lead Beamsville Band?

Vinemount News

(Mrs. M. Glidden, Staff Correspondent)

Mr. and Mrs. Wesley Brand, Miss Mildred Cole, Mr. Wray Brand and Mr. Ralph Bowdlaugh have returned after spending one week at Gordon Bay, near Parry Sound.

Mr. and Mrs. Stuart Jeffries, Miss Elva Etherington and Mrs. Bingle have just returned from a two weeks' holiday at their cottage near Orillia.

Misses Annie Johnstone and Marjorie Lee, of Hamilton, have returned from holidaying for 2 weeks at Peterborough, Bracebridge, Orangeville and Elmvale where they were guests of Mrs. A. W. Little.

(To late for last week)
Mr. and Mrs. Stuart Jeffries are vacationing at their cottage for 2 weeks near Orillia, Ont.

Mr. and Mrs. Elton Jeffrey and Mr. and Mrs. John Larson are holidaying at Waukena Beach.

Miss Darlene Patterson, Burlington, is spending 2 weeks with Mr. and Mrs. Murray Fortman.

A work sale and afternoon tea was held by the W.A. of St. John's church on Wednesday at Loch Sloy with Mrs. R. F. Macfarlane as hostess. The attendance was good, including members from Hamilton, Stoney Creek and Grimsby and Rev. Coester Scovill and family of Toronto were present. Mrs. George Glidden was general convener and the following presided at the various tables: Mrs. C. J. Bradshaw, Mrs. J. B. Puddicombe, Mrs. J. R. Coester, Mrs. George Harkins, Miss Bobby Wilson, Mrs. K. C. Milliken. Afternoon tea was in charge of Mrs. Louis Nash with Miss Irene Carpenter, Mrs. Don McCollum, Mrs. Llewellyn Smith, Mrs. Anastair Smith, Joanne Bradshaw, Nancy Thomas and Susie Carpenter assisting.

You can tell the man who refers to it as tainted money. It's when the other fellow secured it instead of him.

Toronto People Honour Father Kohut

Although Very Rev. Father N. M. Kohut, O.S.B.M. has been parish priest of St. Mary's Church in Grimsby and Superior of the Basilian Fathers here for the past three years, his wide field of activities in Toronto and other Canadian cities has won him a great number of friends. Members of Our Lady of Perpetual Help Ukrainian Catholic Church, Bathurst St., Toronto, last Thursday night honoured Very Rev. N. M. Kohut who leaves shortly for Rome as General Consultor for the Order of St. Basil the Great.

Father Kohut is well known in many Toronto circles. At Thursday's reception he was presented with a wallet containing \$150.00 from his well wishing Toronto friends.

Attending the reception were Rt. Rev. Monsignor P. Kamensky of Our Lady of Perpetual Help, Toronto; Father A. Roborecki, St. Josaphat's, Toronto; Father B. Dziurman, Holy Eucharist, Toronto, and many business and professional men. The dinner was served by the ladies of the church under the chairmanship of Mrs. Mary Slobodzian.

Picture shows Father Kohut receiving a farewell handshake from Rt. Rev. Msgr. P. Kamensky.

HIGHWAY MINISTER

is their road expenditures, not like some counties that I have seen."

Mr. Doucett is just completing a tour of Ontario counties, visiting Wentworth in the afternoon prior to returning to his office in Toronto. Since Monday he had toured 14 Ontario counties and discussed problems with county councilors.

Arriving in St. Catharines shortly before 9.30, Mr. Doucett was welcomed by Warden Robert M. Johnston of Lincoln and members of the County Road Committee. Reeve Charles W. Durham of North Grimsby, chairman of the Road Committee, presided over the meeting, which was attended by Reeve William E. Headlip of Gainsboro, Reeve George Montgomery of Clinton, both members of the committee; Warden Johnston, Clerk W. H. Millward, County Engineer F. E. Weir, H. T. Eaton, district municipal engineer, and Fred A. Bestie of the Suburban Road Committee.

The minister was accompanied on his visit to St. Catharines by J. A. P. Marshall, chief municipal engineer from the Ontario Department of Highways.

At the opening of the meeting, Warden Johnston pointed out to Mr. Doucett the congested condition on the road leading into Port Dalhousie across the old Welland Canal bridge. He stated that traffic tie-ups were numerous, especially when buses were coming into and leaving from the Port Dalhousie-Toronto steamers. Warden Johnston advanced the suggestion that only straightening of the road would relieve the conditions, and Mr. Marshall informed Warden Johnston that he could count on the support of the department in any moves which the Port Dalhousie council and county council might make.

Engineer F. E. Weir outlined to the minister the proposed additions to the county road system to be made in 1947 and 1948 in various sections of the county, including the Townships of Grantham, Louth, Niagara, Clinton, Gainsboro, Caledonia and North Grimsby. Both Mr. Doucett and Mr. Marshall advanced the opinion, "They are all good connections."

The problem of trucks and trailers breaking up roads by the hauling of heavy loads was also discussed during the meeting, when Mr. Doucett stated, "I think that our roads are overlooked." He also pointed out that an attempt is being made to bring the regulations regarding Class A and B roads into line and to put more teeth into the act governing weight to be carried by trucks.

provided for medical cases, including examination, laboratory, dispensary, and pleasant surroundings. A twenty-four hour laundry service is operated at the hospital, which means much to the comfort of the patient.

Mr. Globe further stated "that the Hospital owes a total of \$4000, of which \$2,000 is spread over 24 monthly payments and that until some form of grants are worked out after January of 1947, some funds will have to be raised, from the district as a whole."

It will be recalled that shortage of hospital accommodation in Hamilton prompted the establishment of West Lincoln in 1943. Nearly two years ago a large sum of money was voted by the rate payers of Hamilton to enlarge their Hospital, but little has been done, and as it will be at least another two years before this can be brought into use, our people are indeed fortunate in having provided for themselves.

Today all departments of a General Hospital are available, a twenty-four hour service, 365 days a year. Major surgery is performed by outstanding surgeons, who are glad to attend at West Lincoln for routine or emergency cases.

Obstetrical cases are handled with the most up to the minute equipment where every infant is provided with a private cubicle, and care which gives the child a good start on its road through life.

In the X-Ray department a quick service is maintained. Operated by specially trained personnel, in consultation with an expert Radiologist.

Every modern convenience is provided for medical cases, including examination, laboratory, dispensary, and pleasant surroundings.

provided for medical cases, including examination, laboratory, dispensary, and pleasant surroundings.

A twenty-four hour laundry service is operated at the hospital, which means much to the comfort of the patient.

Last but by no means the least, patients who have had occasion to know, say the meals are something to talk about.

Taking the enterprise as a whole we really have something worth while, and it is there to serve our people in their hour of need. We have faithfully supported appeals from many outside points. This is where we support something for ourselves.

Blueberries In The Maritimes

The cultivated blueberry has been under study at the Experimental Farms Service, for 18 years, with the result that this fruit has been demonstrated to be a highly desirable kind for culture in the Maritime Provinces. It has been shown that most varieties of cultivated blueberries can be grown successfully under the soil and climatic conditions prevailing in much of the Maritime Provinces and that yields, size, and general quality of the fruit compare favourably with the best grown in the commercial blueberry areas elsewhere.

Men living 40,000 years ago had brains equivalent to ours of today says an archeologist. Gee, how dumb the were 40,000 years ago.

APPLE GROWERS

**Get More Fruit
... at Better Prices**

At the first sign of early dropping, spray trees with **PARMONE**, the C-I-L hormone concentrate so successfully used by many growers.

PARMONE prevents or greatly reduces premature drop of both apples and pears. Fruit clings longer and more firmly to the tree. Result — fewer windfalls... improved colour, quality and size... a longer picking season. **PARMONE** does not delay normal ripening processes. Consequently fruit should be picked at the proper stage of maturity.

PARMONE costs little. Just one four-ounce bottle makes 100 gallons of spray. **PARMONE** is highly effective. In some cases, pre-harvest drop has been reduced 85%.

• This year, market better fruit, more fruit, by using **PARMONE**.

Mr. Todd or other factory managers in the district. Her help is urgently needed.

HONG LEE WASHEE

gentleman by the name of Charlie Jew, seeking a site for a Chinese laundry. He located in what was known as the Woodvorton block, where the Temple Building now stands. At that time there were five stores in that block. Charlie wore the customary coat and pants of today's pyjamas, except that they were of heavily padded silk and would not be seen through. His queue reached to the ground. At that time all work was hand work, even to the ironing that was heated in the big hotel size stove in the back end of the building. Wash tubs out in the back yard in the good weather and inside in the bad weather. They turned out good laundry.

Charlie Jew, being the first Chinese citizen in Grimsby was subjected to much abuse from certain characters in the town, but after they had once or twice appeared before "Squire" Forbes and paid out plenty, the annoyance ceased. Then along came Hong Lee, a dapper little Chinaman. One of the first in Canada to cut his queue off. He was a right smart little fellow.

Worked 28 hours a day, or whatever hours a Chinaman works and built up a tremendous business. Added the first heated ironing machine that was put to work in the district.

He eventually sold out and during the war years Chin Cleu purchased the business, and he brought with him a young brat of a Chinese kid, known as Chin Ham. Chin went to school in Grimsby to Mr. John H. Forman, and on more than one occasion Mr. Forman told The Independent that he was proud of the progress that Chin had made. He was also proud of the way that the other kids of his age had treated him.

Chin Ham was a nephew of Chin Cleu and when "Old John" passed away to the eternal heavens of China, Chin Ham became the owner of the Hong Lee Laundry.

Now, Chin Ham is "Scotty." He is the kid that grew up in Grimsby and went to school to Mr. Forman. He is moving out because there is not a suitable place for him to locate.

If the people of this district want their laundry washed and ironed in a first class manner and they want "Scotty" to do it, then they better get busy and find him a place to locate in. Otherwise "Scotty" and his crew are moving out of town the end of the month and Grimsby will be the worse for it.

BODY MECHANISM

Need of constant care and "overhaul" for the human body, to avert illness and preserve health, is noted in a statement issued by the Department of National Health and Welfare, Ottawa. Say the health authorities: "Just as an automomobile, or any machine, needs good, clear, properly-blended fuel: just as it requires water, air, cleaning and constant checking for faults, so the human body needs good quality food and other aids to perfect performance—like exercise, fresh air, relaxation. For the human body is a motor—finest of them all. And, like all sensitive things, it must have periodic overhaul and constant attention."

BASIS OF HEALTH

Frills of living can only come after care is taken of the fundamentals, warn health authorities at Ottawa. The Department of National Health and Welfare reminds Canadians that we cannot live safely until we have ensured health, since life cannot be enjoyed during illness. The department asks everyone to become familiar with

the primary rules for health conservation, in order, under the guidance of the medical authorities, to progress to better and happier living.

When money becomes inflated it also seems to inflate the ego.

"They Eat Out Of Your Hand"

The spotted deer of Northern Ontario come stalking cautiously out of the vast forest which is their home, to stare with wondering brown eyes at the road man has cut through the wilderness. They rub velvet horns against signposts that read "The King's Highway", and they are not afraid, for they have never even heard the crack of a rifle. If you offer them food they will take it, timidly, right out of your hand.

They are part of the vast heritage of wild life and forest beauty with which we Canadians are endowed, and in their very trustfulness is a plea for protection—against the hazards of fire—of predatory animals—of indiscriminate hunting by ourselves.

As new branches of the King's Highway open up, bringing more and more of Canada's beautiful forest land within reach of the city dweller, it becomes increasingly important that each one of us understand the laws and rules of conservation, for only by so doing can we protect and preserve our heritage.

Every Canadian, as a shareholder in Canada's natural wealth, has a vital interest in the conservation of this heritage. Conservation is not just a doctrine to be preached to hunters and fishermen. It is a vital part in the continuance of our national economy, and must, of necessity, fail if its measures do not receive the full support of all Canadian citizens.

LACK OF RAINFALL

fairly high levels except for a short slump in Shiro plums August 5th, and the market outlook is quite favourable at present.

As in fruit, the main factor affecting development of vegetables has been the lack of general rainfall at critical periods. This applies particularly to Essex and Kent Counties where the yield of early tomatoes was considerably affected and where the cantaloupe crop prospects have been heavily reduced. In all sections, however, the early potato crop matured prior to the dry period and a heavy crop of good quality has been marketed to date, an extremely heavy fall

IT'S THE COVERING THAT COUNTS

SHIELDED!

Nature has gone to great lengths to shield from harm the ugly, delicious lobster. With what craftsmanship it has been protected... by hard, flexible armour—formidable pincers!

For 40 years Brantford Roofing, too, has used fine craftsmanship to shield Canadian homes from the onslaughts of weather—and time. To-day, Brantford Asphalt Shingles are playing their full, vital part in Canada's great home-repairing program. Countless thousands of Canadian homes are proudly protected by Brantford Roofing in many varieties of colour combination and design.

Inspectors on hand early last week to study operations of the Fruitland Inspection Station. Left to right are: Warren McNiven, chief inspector, Fruit Branch, Ontario Department of Agriculture, H. H. Ponton, in charge of the Western Ontario district inspection for the federal government, and George Wilson, director of the Fruit Branch, Ontario Department of Agriculture.

CONTINUATIONS
 From Page One

PASSES SUDDENLY
 came more free than Grimsby, Grimsby Beach and the surrounding territory would witness one of the biggest developments of any section in the province.
 Born in Toronto, February 5th, 1897, he moved when a little lad, with his parents, to Buffalo, N.Y., where he attended school, later graduating from Union College, Schenectady, N.Y., being a member of the Alpha Beta Phi Fraternity.
 During the First Great War he served with the R.C.A.F. and later became affiliated with the 2nd Dragons of Hamilton, where he lived for 20 years before coming to Grimsby Beach five years ago. Three years ago he opened a real estate, building supplies, and insurance office in Grimsby, and last spring purchased the brick block on Main street occupied by his own office and the office of the Grimsby Natural Gas Co., and he said at that time that he made the purchase because he believed that Grimsby was a growing town and would grow still larger.
 He was a member of Grimsby Lions Club; West Lincoln Branch 127, Canadian Legion; Westworth County Hunt Club, Hamilton; Lake Shore Hunt Club, Buffalo, N.Y.; Kewick Hunt Club, in Virginia.
 Surviving are his widow, the former Eleanor McLellan, three daughters, Peggy, Connie and Jewell; his mother, Mrs. Albert J. Delaplante; three brothers, Walter, of Buffalo; Albert, Miami Beach, Fla.; and James, of Hamilton.
 Funeral services will be held from the Stonehouse Funeral Home on Friday afternoon at 2:30 p.m. and will be conducted by an old friend and neighbor, Rev. Dr. Arthur L. Charles, Rector of the Church of St. Mark (Episcopal), Brooklyn, N. Y. Interment will be in St. Andrew's Churchyard.

Travelled 1300 Miles By Jeep
 (St. Catharines Standard)
 Travelling 1,300 miles in a jeep is not exactly the most comfortable mode of transportation, but it is a way of getting to your destination and seeing more of the world in the same time. Four residents of Manitoba did that last week, when they travelled from Gypsumville, about 180 miles north of Winnipeg, to St. Catharines in a farm jeep.
 The four, Mr. and Mrs. Harold Hunter and Mr. and Mrs. Algy Freeman, came down to attend a funeral. They had planned to go by rail, but missed the train, and struck upon the brilliant idea of making the journey in a jeep. Leaving Gypsumville last Wednesday afternoon, the quartet and day after tomorrow, the jeep arrived at 40 Court St. on Saturday morning, none the worse for their long, hazardous trip.
 On the contrary, the journey was rather delightful, with many interesting sights encountered on the way. No trouble was experienced, but they did run out of gas north of North Bay. In all, it was a most interesting journey, and the four hope that the return trip will be just as pleasant.
STOP WASTE OF WEALTH
 "Canada's forests yield a perpetual harvest of wealth, until destroyed by fire. Helping to prevent forest fires is a duty of every Canadian."
 Another thing that makes a going business is the man who is pushing it forward.

Changing Colors

The fire changes color partly owing to variations in its air supply, and partly owing to the escape of different gases from the coal. The burning is due to the oxygen, and the more oxygen supplied, the more brightly and rapidly will the fire burn. If there is an excess of oxygen, a great deal of carbon monoxide is formed, and this burns with the blue flame so often seen in fiercely burning fires.
 It must be remembered that different substances and gases have their own color when burning, and coal contains, besides carbon, various mineral substances and several gases, all of which affect the color of the fire in some way.

New Certificates Now Wallet Size

New birth certificates designed to fit snugly into wallets and made of a water-proof material will be issued by the provincial government after September 1.
 The new design employs a very thin celluloid acetate paper resistant to perspiration and even water, and cannot easily be mutilated without detection.
 R. B. Wallace, registrar of vital statistics for Ontario points out that present border crossing regulations require a birth certificate for identification. Special copies of lost certificates must be obtained by tourists in the majority of cases. The new certificates would obviate for most people the need for obtaining letters and duplicate certificates from the vital statistics branch before crossing the border.
 The new certificates will bear only the name, date and place of birth and an index number, and will be issued for a fee of \$1.50. Persons wishing to replace present certificates with the new ones will be able to obtain them for \$1.
 The old forms list, in addition to data on the holder's birth, names of his parents, and the father's occupation.

Barbara Became Star Overnight

Barbara Britton became a movie star on the shortest notice in Hollywood history. At three o'clock one afternoon, she was just another promising young actress playing secondary parts. At nine o'clock the next morning she stepped before the camera as the feminine star of "Till We Meet Again." Now she plays the top female lead in Paramount's Technicolor super-Western, "The Virginian," currently at the Roxy Theatre first half of next week, with three of filmdom's most sought-after male stars, Joel McCrea, Brian Donlevy and Sonny Tufts. And it couldn't have happened to a nicer girl.
 Barbara decided on her career when, at the age of six, she brought down the house in a Sunday School play, and the applause immediately went to her head. After that, she was always being put into school playlets, and eventually majored in English and dramatics at Long Beach Junior College. Her first break came with the publication of a picture of her on the Long Beach Post in the Pasadena Tournament of Roses. A Hollywood agent saw it, was impressed with her beauty and induced Paramount to sign her to a contract. Obeying all the rules, studying her dramatic lessons hard, uping to bed early and getting for early, helped prepare Barbara making the grade.
 Barbara Britton's likeness has appeared more often on the cover of national magazines than that of any other actress in the movies, and she is one film star who never was an extra.
SICKNESS PREVENTION
 Pointing out that no sane motorist would dream of running an automobile indefinitely without periodic check-up to ensure all parts of the mechanism were in order, the National Health authority at Ottawa advises Canadians to treat their bodies and minds as they would any other delicate machines, and seek professional advice to guarantee their best performance. "If you wait for a breakdown before consulting the doctor, it may be too late" warns the Department of National Health and Welfare. "There is no better way of detecting and averting sets than periodic health examination."

BREVITIES

EVENTS and TOPICS of the WEEK in TABLOID

Peaches and Cream. Yum!

Labor Day is Monday Sept. 2nd.

Thanksgiving Day, October 14th.

Niagara township mill rate is 39.5 mills.

Threshing is the order of the day, on the Hill Top.

Grantham township tax rate has been struck at 28.2 mills.

Calster township mill rate has been struck at 34.5 mills.

It is estimated that the new public school at Niagara-on-the-Lake will cost \$191,000, with the Ontario government paying 60 per cent.

Grimsbey Boy Scouts will hold a winter roast on Hand's Beach on the evening of Friday, August 30th, beginning at seven o'clock. All Scouts are urged to attend.

Several persons were shaken up and property damage estimated at over \$700 was done when cars in charge of Richard O. Ruppert, Buffalo, and David E. Jones, Winona, were involved in collision at the intersection of the Queen Elizabeth Way and Nelson's sidroad on Sunday evening.

Bicycle riders who persist in riding their wheels on the sidewalks and footpaths of North Grimsby township are due for a lot of grief and agony. Warning notices have been posted and henceforth bicyclists who ride on the sidewalks will be prosecuted to the fullest extent of the law.

Hidden In A Tree

One day a student out on his father's ranch in California was reading under an old pine tree. He noticed a peculiar scar on the tree and being curious, he took off a piece of bark with his knife and ran the blade into the tree. There he found embedded a small leather-covered Bible containing the date 1849. Apparently it had been left in a notch cut in the tree to form a little shelf, and the mighty tree had grown around it.

An old-timer is the one who can recall when they referred to the evening meal as supper instead of dinner.

This is the latest portrait of Field Marshal the Viscount Montgomery of Alamein, G.C.B., D.S.O., Chief of the Imperial General Staff and former Commander of the 21st Army Group, which may be used in connection with his visit to Canada.

Unusual Request Puzzles The Cop

(Burlington Gazette)

On Sunday morning last, one of our local constables had rather an unusual request. He was enjoying breakfast at the Brant Inn, when four American visitors approached the constable and enquired "What was the earliest hour that the Protestant churches held the morning service, especially the Presbyterian church." They had been up north on a holiday and were en route home.

The constable, who was rather taken by surprise under the circumstances, directed the party to the United Church, where joint services were being held during the summer months.

The constable decided to take a peep at the visitors' car, feeling that possibly the better half of some of the men had insisted that they attend church service before proceeding on their way, but no women were in the party.

Going Up Just To Come Down

A new invention seeks to overcome some of the present hazards for airmen who have to fly fast and high.

Mr. Leslie Irvin and Mr. James Martin have devised a parachute technique by which the pilot shot up into the air clear of his plane, seat and all, releases himself from his chair, and then descends until he reaches a pre-determined pressure level, when a small barometer releases a trigger, the pack opens, and the canopy streams out. The airman then makes a comparatively slow descent through air which he can comfortably breathe. Provision is made against the blast of fast moving air when he is shot from his plane.

It is said that laughter aids digestion, but some of these radio humorists don't help matters.

How can you expect a brotherhood of mankind so long as neighbors fall out over a property line?

It seems the winter of discontent has now entered the summer season.

An enjoyable speaker is the one who announces that he has only a few words and then sits down when he says them.

THE
ALEXANDER
HARDWARE
Company, Limited
Hamilton — Ontario

Hello Homemakers! Sweet music to many a housewife ear is a suggestion for dessert. There's a problem the majority of us find difficult to solve, for padding and pies dig deep into our sugar and butter reserves.

Use an abundance of fresh fruit and serve it with flavoured cream rather than fruit sugar. Learn to judge fruit by its fragrance and appearance. Chill thoroughly before preparing for the table. Never put ice in meringues or soft fruit as it destroys the flavour.

Here are a few ideas: Steamed apples; baked pears stuffed with raisins; fruit snow; macedoine of fruit; fruit custard; fruit jelly; fruit sponge; fruit shortcakes; fruit bread pudding; scalloped fruit; fruit sherbet; fruit ice cream.

MACEDOINE OF FRUIT

3 peaches, 3 pears, 1/2 cup sliced orange, 1/2 cup diced watermelon, 1 cup raspberries.

Fare and slice peaches and pears, cut orange and melon in small pieces, chill for one hour. Serve in glasses, adding one tablespoon whipped cream to each glass just before serving.

BASIC FRUIT JELLY

1 ounce (2 tbsps.) gelatine, 3 cups fruit juice, 1/2 cup sugar, 1/2 cup cold water, 1/2 cup boiling water, 1 cup cubed fruit.

Soak gelatine in cold water until soft. Add to boiling water and stir over hot water until thoroughly dissolved. Add sugar and stir until dissolved. Remove from heat. Add remaining liquids or fruit pulp and mix thoroughly. Four into moulds that have been dipped into cold water. Chill in electric refrigerator. When partially set, add cubed fruit.

BASIC FRUIT WHIP

Use recipe for basic jelly but leave the mixture in the bowl in which it was mixed until it begins to congeal. Then whip until it becomes light and frothy. Turn into moulds and chill in electric refrigerator. Top with fresh fruit.

THE QUESTION BOX

Mrs. T. C. asks: Why does a chocolate cake develop a dark streak near the bottom?

Answer: This heavy dark streak may be caused by a difference in the chocolate used — some chocolate is richer in fat than others. The temperature used for baking may be the cause or the type of flour used may have altered the texture — a change from all-purpose to pastry flour would make a difference. You use 2 tbsps. per cup less all-purpose flour.

Mrs. E. M. asks: Have you tried bean gravy?

2 tbsps. shortening, 2 tbsps. flour and 1 cup hot bean stock. Stir in a few drops of gravy colouring.

Mrs. J. R. asks: What makes one batch of apple sauce white and another dark, using the same kind of apples?

Answer: Peeled apples darken in tarnished kettles and from exposure to air. To keep clear colour, drop pieces in water with lemon juice in it as they are being prepared. Cook in a small amount of water and mash with steel or wooden masher.

Mrs. R. C. asks: What makes eggplant taste bitter?

Answer: The slices have not been sprinkled with salt and weighted down long enough. Press down for 1/2 hour.

SUGGESTIONS FOR USE OF BAKING SODA

1. Use 1 tsp. baking soda with 2 tbsps. cream of tartar to 1 pound or 4 cups flour.

2. Curdling of milk in baked dishes, such as scalloped beans, can be avoided by adding 1/4 tsp. soda.

3. Before storing meat in a refrigerator, wipe it with a clean cloth that has been dampened in a solution of baking soda and water. This will remove dried clots and leave meat sweet and clean.

4. Rub meat that has come out of a brine or chilling room with baking soda.

5. Wash such pails, cookie jars and bread boxes with soapy water and rinse well with baking soda solution.

6. Every refrigerator should be thoroughly cleaned by washing out with baking soda solution.

A package of baking soda should be near the stove in case of a fire in broiling pan or frying pan — the soda can be quickly smothered by it.

8. When food burns or sticks to pots and pans, fill with water to cover — surface to be cleaned, add 1 tablespoon of soda and boil the solution.

Baking soda is a good detergent but is not abrasive. It can be used to clean glass surfaces, windows, mirrors, bath and basins.

10. Being mildly alkaline, baking soda makes an excellent mouth

wash and gargle. It also soothes the membranes of the mouth.

11. To remove odors of onions, fish, etc., from the hands make a paste of baking soda and rub over hands. Let dry for a few minutes, then rinse.

12. Baking soda is an inexpensive medicinal aid — for indigestion, laxative, baby's bath, foot bath or restful bath, tooth, insect bites, baby's rash, baby's bottle or disinfecting castor oil.

Anne Allan invites you to write to her c/o The Grimsby Independent. Send in your suggestions on homemaking problems and watch this column for replies.
